**Supervisor Parks** informed the MAC that over 3,700 cultivated marijuana plants had been discovered in the Hill Canyon area of the 1500 block of Rancho Conejo in Thousand Oaks and the Sheriff's Department is seeking information on the suspect(s) involved. Supervisor Parks mentioned that her family had been close to the late Santa Rosa Valley Technology Magent School teacher Sandee Tischler through their Boy Scout Troop and that Sandee will be greatly missed. She told that the MAC that the Board of Supervisors had passed the budget, that no positions had been cut and the County is continuing to increase reserves. She added that Federal programs are anticipated to be cut, especially CalWorks. **Janis Gardner** asked Supervisor Parks to describe the plans for the "no kill" shelter. Supervisor Parks explained that it will be a gradual process and that Animal Services Department is now being overseen by the Public Health Department, headed by Barry Fisher. **Don Shubert** asked for more information on the locked mental facility and Supervisor Parks said the facility will be located at the Camarillo Airport and will house 15 patients who are a danger to themselves or to others. She said that in some instances patients have to be sent out of the County to a locked facility, and having a facility in Ventura County will help families of jail patients. **Kevin Cannon** inquired about the State transferring inmates to County jails, and Supervisor Parks replied that thus far, the County is handling the influx in part by upping the number of individuals who can do work furlough. She said that issues arise from long-term inmates since the County is not set up to deal with them.

**6. Public Safety Reports**

**CHP Officer Mike Moriarty** reported a rash of traffic accidents during the last month on Santa Rosa Road and said most of them involved Santa Rosa Valley residents. He said that 5 of the 7 crashes occurred eastbound on Santa Rosa Road and that most happened during the early morning and 5:00 p.m. commute hours. Officer Moriarty also said the effort to keep the Simi Valley courthouse opened is looking at keeping the courthouse open two days a week providing better officer protection to the community because officers will not be required to drive to Ventura for court dates. Officer Moriarty also noted that the number of citations has increased for distracted drivers using cellphones and texting while driving.

**7. Public Comments**

**Kevin Cannon** asked Supervisor Parks' office to find out where in the repaving cycle are Las Posas, from Santa Rosa Road to Escollera, and Escollera Drive.

**Jim Fortney** alerted the MAC that the formal draft EIR for Conejo Creek was released this week and said comments must be submitted within the next 45 days. He explained that the project adds 2,500 additional homes in the middle of a flood basin. Supervisor Parks added that once approved, the project can be phased in and noted that the approval would allow 740 acres of farmland to be converted to development. **Rosemary Allison** made a motion that Ruth Means and Mark Burley form a subcommittee to send a comment letter within the EIR comment period to the City of Camarillo on behalf of the MAC. **Janis Gardner** made the second.
